unknown ship, which sank soon after-wards, as cabled exclusively to the Associated Press last night, is the subject of an investigation here upon the part of the agents of the line.

According to first rejerts, the collision took place between 1.30 and 2.00 A. M. Wolnesday morning during thick weither, accompanied by heavy rain, and it was stated that soon after the collision the Paris was put about and search was made for the ship, which, although before a lifeboat could be lowed. Nothing further was seen, stitiough the Paris searched for the ship until daylight. The liner was eventually empelied to proceed for this port withen thaving saved any of the crew of the inknown vessel.

When the steamship arrived here it was reported that the vessel with which he Paris collided showed signals of disress after the collision, that screams were heard aboard of her, and that she lisplayed a white light about three minites before the collision.

Capt. Walkins last night declined to make any statement except to the sigents of the American line, but some of the passengers of the Paris criticised in alleged delay on the steamer in bowering a boat and in getting herearchight in working order.

The official report, made public this fernoon, says that when about eighty siles west of Bishop's Rock, at 2 A. I., Wedneaday, the Paris collided with a small unknown vessel, which is supposed to have been a foreign bark. Before the collision nothing was seen but a white light, which was taken to be the stern light of some vessel ahead, but just when the collision occurred he lookout of the Paris saw a green.

The despatches add that since the crisis, the Czarina has been subject to continual trembling and syncope.

It is also stated that yesterday the condition of the Czar varied between drowsiness and comparative cheerfulness drowsiness and comparative cheering and puring one of the latter periods, the Czar is said to have been left alone with the Czarvitch for an hour, and it is understeed that during this interview the Emperor dictated a loving message of farewell to Russia, which will be issued upon his death.

The Czar is reported to be much gratified at the expressions of sympathy upon the part of the Russian people. The Berlin correspondent of The Telegraph hears that it is probable that only an ecclesiastical betrothal and exchange of rings occurred yesterday between the Czarewitch and Princess Alix. Such a betrothal, according to the Eastern Church, is as indissoluble as a marriage.

A despatch to the Paul Mail Gazette from Yalta says that symbols of joy and serrow jostle each other everywhere in that neighborhood. State carriages and regiments of troops for the Imperial marriage arrived at the same time as the mourning coaches and liveries of woe which will be required in the event of the Czar's death.
